Next Trail Work Session: Committee members will meet Sunday, September 22nd at the Water Treatment facility off of Fairview Avenue at 8 a.m. in order to get materials in place. Friends of Wilmington Trail Committee should arrive at 9 a.m. to assist in building bridges on the Hoot, Toot and Whistle Trail west of the Water Treatment facility.

Ryan Edwards, an alternate, has resigned because he is moving to Boston. The Committee has appointed John Gannon to take his place.

West Main Street Parking Lot: John Gannon will find out how much money we have in our account. We need someone with the proper equipment to excavate in some areas in order to prepare the path for gravel.

Valley Trail: There was a very lengthy discussion about sections of the trail that will be prepared for Sure Pack. We will concentrate on the area south of the Haystack Gatehouse. John Gannon, Jake White and John Greene will get estimates from local contractors for said project after it has been ascertained that money is in place from the Wilmington Fund. John Gannon will speak to Scott Murphy about the project and Jake White will inform the select-board. A path is to be made from the first section of the Valley Trail (downtown Wilmington) to John McLeod's parking lot.

Kiosks: John Gannon informed the committee that we are ready to move ahead on ordering six kiosks, plexi glass included. He will inform Gretchen Havreluk tomorrow.

Respectfully submitted,
