DRINKING WATER WARNING

WILMINGTON WATER SYSTEM WSID 5310

BOIL YOUR WATER BEFORE USING

Due to the need for system maintenance or from a water line repair there is a strong possibility that your drinking water supply may become contaminated on the way to the tap. This situation presents a significant health risk to users of the WILMINGTON water system. The WILMINGTON WATER SYSTEM is issuing a Boil Water Notice for users, effective immediately.

Repair to the water main is needed. All users on South Main Street from the #3 to #25 South Main and #1 East Main, will be affected. The water will be shut off on Wednesday morning 11/4/26 for a couple hours beginning at approximately 9:00 a.m.

What should I do?

DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all water to a boil, let it boil for one minute, and let it cool before using, or use bottled water. Boiled or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and food preparation **until further notice**. When a water system is experiencing changes in water pressure bacteria and other harmful organisms may enter the water distribution system and contaminate your drinking water supply. Boiling kills bacteria and other organisms in the water. More information is available from the EPA's Safe Drinking Water Hotline at 1 (800) 426-4791.

What happened? What is being done?

This Boil Water Notice will remain in effect until testing shows that the drinking water meets State and Federal drinking water standards.

We will inform you when the necessary system maintenance/repair has been completed and tests show no bacteria present in the drinking water supply. We anticipate resolving the problem within 2 DAYS.

For more information, please contact JOHN LAZELLE 802-380-4475 or BRANDON BRASSOR 802-681-6867.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
